# J.F.K. MEMORIAL

Let the word go forth from this time and place, to friend and foe alike, that the torch has been passed to a new generation of Americans—born in this century, tempered by war, disciplined by a hard and bitter peace, proud of our ancient heritage — and unwilling to witness or permit the slow undoing of those human rights to which this nation has always been committed, and to which we are committed today at home and around the world.

Let every nation know, whether it wishes us well or ill, that we shall pay any price, bear any burden, meet any hardship, support any friend, oppose any foe to assure the survival and the success of liberty.

This much we pledge — and more.

Excerpt from

For the Freedom of Man

We Must All Work Together

By John F. Kennedy, President of the United States

Delivered at Inauguration Ceremonies, Washington, D. C., January 20, 1961

## FOREWORD

We, the staff of the 1964 yearbook, offer this edition of the Review as a pictorial record of an exciting and wonderful year.

We have tried to present an accurate account of life on a high school campus: the "Beatle" hair cuts, the surfers and white levis, the "Hootenannies", the long hair and wrap-around skirts; as well as the rallies and assemblies, the books and binders, the term papers and class discussions, and the slide rules and the test tubes.

These are some of the things which have helped to provide you with a well rounded educational and social background. This then is a picture of your "Education in Action".

Sincerely,  
Karlyn Schluter

## PRINCIPAL'S MESSAGE

To each of you go the wishes of the staff and student body of your school for your continued success! On the occasion of your commencement you are joining other thousands of alumni of this great school in the task of maintaining and transmitting the democratic heritage which you enjoy.

The world will not be without problems in the years of your adulthood; however, your community looks forward with eagerness to your participation in the resolving of these problems. We of your school urge you to continue to be informed, continue to be interested, and continue to be active. We know that your community will reap great dividends from having provided you with excellent educational opportunities.

We wish for you a life of happiness and fulfillment!

## INTER-SCHOOL COUNCIL

Top row: B. Lavelle. Middle row: A. Chee, K. Morgan. Bottom row: B. Santin.

The club is an integral part of our school as it provides the chance for a student to enjoy himself and learn at the same time. A student learns the meaning of co-operation and of contributing his ideas and knowledge to the group. Clubs try to help the student to pick his vocation and to gain more information on it by having guest speakers and visits to the places where the professionals work. Such clubs as these include Future Nurses and Future Teachers. Other clubs serve the school and the community by participating at games, welcoming new students, selling the Review, and handing out the X-Ray. Such clubs include Tri-S, Block-S and the Key Club. Clubs help to form character, mind, and lasting friendships and provide Sacramento High School with its well-rounded program.

## A.F.S.

Tim Sauer

I would like to thank very deeply those people who have made my stay in the United States so enjoyable. Coming to Sacramento High, from a small private school for boys in Australia was a very frightening experience for me. I had been told that the education system in America was of very low calibre but I personally found this to be untrue. I do, however, find something to be desired in your examination system. In Australia, the students are given a state examination every two years beginning with the eighth grade. This determines whether the student goes on or stays in the same class. The test is a three hour essay type paper on each subject.

One subject I really enjoyed here at Sacramento High is the study of the United States government. I feel that we need such a course concerning the Australian government in our own school.

This year I have spent here in your country will be, I am sure, one of the most memorable experiences that I have had. The privilege of participating in The American Field Service program is a wonderful organization doing what they know will better international understanding. To you all, I give my deepest thanks and best wishes for the future.

These three words, American Field Service, bring back a world of memories: the departure from New York aboard the "Seven Seas", meeting fellow foreign exchange students aboard ship from every corner of the United States, the arrival at Rotterdam, with many Dutch families waving brightly painted signs - "Welcome AFSers", arriving at Koln, Germany, meeting, learning to love, and becoming a member of a wonderful German family, living in a Swiss youth hotel with a German youth group, the Sunday afternoon trips through the countryside, the farewells as we departed in groups from the train stations, the end of stay in Bremen with a new family, the Farewell Dance, losing my passport, the return trip, the sharing of experiences with the other AFSers, the dances and hootenannies, "When AFS comes marching in", more farewells, the arrival home to questioning family and friends.

These (and I could name so many more) are the things which the words American Field Service mean to me. The AFS experience is indeed unique. I was more than a tourist, I not only saw the sights, but I also feel that I learned to know something of the people. I came to know and love my new family. The experience has made me wish that every high school student could have a similar experience. The AFS shall always remain close to me, as, indeed, it shall to all AFSers: the American Field Service is a great institution.

## JUNIOR TESTING

The purpose of these junior tests are to show how our school is doing in regard to other high schools. There are two tests given. The first is an aptitude test called SCAT or the School College Aptitude Test. An achievement test is also given. This is STLP or the Sequential Test of Educational Progress. These tests measure the student's ability in relationship to his achievements.

Dear Dr. Sesserao,

You, too, are graduating this June! In a few short weeks, your career as principal of "the greatest high school on earth" will draw to a close. During your years of service you have given the school ideals on which to grow, but more than that, you have given yourself. Your sincere concern for student welfare, your enthusiasm at athletic events, your heart-warming smile - these are the fine things you have brought to the school through your service.

We thank you and give you our wish for success and happiness in the years to come

The Sacramento High School  
Student Body
